Ans2   < html >
            < head >

Ans 1   < html >
            < head >
            < htl >   fameset < / title >
   < / head >
            < frameset cols = " 20% , 80% " >

        < frame name = " navigation fames " src = " navigation frame .ht >
        < frame name = " floating frames "   src = " floating frame .ht >
        < frame name = " mixed frame "   src = " mixed frm .html " >
            < frame name = " noframes "   src = " noframes .html " >

            < / frameset >
            < / html >

navigationframes.html

floatingframes.html

mixedframes.html

noframes.html

Ans 2

```html
<html>
<head>
<style>
tabel, th, td {
   border: 1px solid;

}

ul.a{
   list - style-type: circle;

}
<style>
</head>
<body>
<h2> Add a border to a tabel :</h2>

<table>
   <tr>
      <th> first name </th>
      <th> last name </th>
   </tr>
   <tr>

   <td> Peter </td>
      <td> Griffin </td>
```

```
</tr>
<tr>
    <td>Lois</td>
    <td> Griffin </td>
    </tr>
</table>
<h1> Create a table and list using CSS</h1>

<ul class= "a">
    <li> peter </li>
    <li>Lois </li>

</ul>
    </body>
    </html>
```

Add a border to a table:

Firstname	Lastname
Peter	Griffin
Lois	Griffin

create table and list using CSS

- peter
- lois
